

Meeting 9-9:45 am June 7

Attending: Carlos Aguilar, Sue Black, Sandra Zuniga, Richard Bridygham, David Adams, Jean Bogiages

### **Fence on north side of Benches area**

- Carlos has the task on his list ( add a small gauge fence making a triangle with the existing fence. see red line approximation in sketch). He also said there was a plan to replace the existing other fences going to the bridge in the benches area.
- He is working on the 20th & Vermont project first, but there may be a lull at the moment, and he may be able to do it before the 20th & Vermont project is completed.

*Fig 1: Benches Park Area (Caltrans property, DPW maintenance)*

### **Cameras**

- Sue said that in order to get cameras on the pole we need to have the agreement of the city attorney and have a process outlined that will respect privacy rights as well as getting the electricity enabled and a maintenance plan in place.
- Sue will work with me to outline the steps that need to be taken and the contacts that need to be made in order to implement this pilot project.

### **Lights**

Sue will talk with her department about what it would take to:

- have a light added to the PG&E pole (#1 in figure 1)
- Have additional wattage and an additional mast arm in the Caltrans pole maintained by PUC (#2 in figure 1)

Richard will initiate work to add a light wallpack with two heads at the bottom of the existing light (#3 in figure 2)

*Fig2: Fallen Bridge Mini-Park circular sidewalk*

### **Bridge Floor**

Painting the bridge floor and removing the paint glops. Richard recommends that we take advantage of the \$1300 estimate Sandra got for us in order to paint the bridge floor. This would involve having the neighborhood raise the funding.

### **Mural**

Richard recommended that we contact the SF Art Commission, as we might be able to get funding for supplies and materials. This project would have two goals: 1) beautify the neighborhood and 2) build community by involving the HS kids from DHS and the neighbors on a joint project.
